I highly and enthusiastically recommend "Blood Sisters" by Sarah Gristwood. A fascinating and compelling account of the War of the Roses from the vantage point of the mothers, sisters, daughters and wives who also played central and catalytic roles. The life of the medieval woman was hard and terribly often, terribly short.

It seems a perfect beach in tropical north Queensland, yet a sign marks the site where fifteen Aboriginal people were massacred more than a century before. Then on a sunny morning in 2002 the body of a young Aboriginal woman washes up on the sand. Accident ... or murder? Close by lives Cairns forensic pathologist Leah Rookwood, on the island handed down through four generations of Rookwoods. As Leah's colleague Detective Leslie Fernando investigates the modern-day death, Leah discovers some dubious history in her own family. Are the distant events and the current tragedy linked?

The Wars of the Roses, which tore apart the ruling Plantagenet family in fifteenth-century England, was truly a domestic drama, as fraught and intimate as any family feud before or since. But as acclaimed historian Sarah Gristwood reveals, while the events of this turbulent time are usually described in terms of the men who fought and died seeking the throne, a handful of powerful women would prove just as decisive as their kinsfolk's clashing armies. A richly drawn, absorbing epic, *Blood Sisters* reveals how women helped to end the Wars of the Roses, paving the way for the Tudor age—and the creation of modern England.

During their childhood years in the Kenya Highlands of the 1950s, three girls from vastly different backgrounds become blood sisters, promising that nothing will ever destroy the bond between them. But as they grow up love rivalries, broken promises and the tensions and violence of a newly independent Kenya threaten to tear their childhood dreams apart.

The true story of the White Queen and more, this is a thrilling history of the extraordinary noblewomen who lived through the Wars of the Roses.

In a Cairns motel a young Asian woman lies in a pool of blood. Transferred to hospital, she dies before she can tell her story. Detective Cass Diamond and her team are soon on the case. Was the woman part of a sex-trafficking ring? Who brought her to Cairns? Are other women in danger? Soon it appears that many women may be missing... Could their disappearances be linked to the brutal murder of a Cairns sex worker several years earlier? Meanwhile a group of Cairns school-girls has become involved, as one of them works evenings in the motel. Unconnected to the detectives, the girls pursue their own investigations. They meet the dead woman's cousin, learn much about the women's earlier lives, and discover strange activities in an otherwise unremarkable Cairns suburban house. But have they pried too far? As these separate searches progress, the story moves to the tropical rainforest surrounding Cairns, beautiful but capable of hiding many things... What secrets does it hold, and are more women threatened there? Set like the earlier novels in the lush splendour of Far North Queensland, the third Cass Diamond mystery explores sex trafficking and abortion, teenage emotions and adult mischief, in a story as densely branched as the rainforest itself. Caroline de Costa holds her readers in suspense till the very last pages.

"First published in Great Britain by Penguin Books, an imprint of Penguin Random House UK"--Verso.

An "impeccably researched and beautifully written" biography of Lady Margaret Beaufort, matriarch of the Tudor dynasty (Tracy Borman, author of *The Private Lives of the Tudors* and *Elizabeth's Women*). In 1485, Henry VII became the first Tudor king of England. His victory owed much to his mother, Lady Margaret Beaufort. Over decades and across countries, Margaret had schemed to install her son on the throne and end the War of the Roses. Margaret's extraordinarily close relationship with Henry, coupled with her role in political and ceremonial affairs, ensured that she was treated -- and behaved -- as a queen in all but name. Against a lavish backdrop of pageantry and ambition, court intrigue and war, historian Nicola Tallis illuminates how a dynamic, brilliant woman orchestrated the rise of the Tudors.

Adapted for the STARZ original series, *The White Princess*. Love to the Death. When Henry Tudor picks up the crown of England from the mud of Bosworth field, he knows he must marry the princess of the enemy house—Elizabeth of York—to unify a country divided by war for more than three decades. But his bride is still in love with his dead enemy, and her mother and half of England remain loyal to her brother, the missing York heir. Henry's greatest fear is that somewhere a prince is waiting to reclaim the throne. When a young man who would be king invades England, Elizabeth has to choose between the new husband she is coming to love and the boy who claims to be her lost brother: the rose of York come home at last. "A bloody irresistible read." —People "Bring on the blood, sex, and tears!...You name it, it's all here." —USA TODAY
