A shocking examination of the extreme national security apparatus built in response to the terrorist attacks of September 11th After 9/11, the United States government embarked on an unprecedented effort to protect America. The result has been calamitous: Eleven years of unparalleled spending and growth have produced a system to keep America safe that may in fact be putting us in even greater danger--but we don't know because it's all top secret. In this acclaimed bestseller, award-winning journalists Dana Priest and William M. Arkin lift the curtain on this clandestine universe. From the agencies and private companies keeping track of American citizens, to the military commanders building America's first "top secret city," to a hidden army within the U.S. military more secret than the CIA, this new national security octopus has become a self-sustaining "fourth branch" of government. Top Secret America is a tour de force of investigative journalism that reveals government run amok and a war on

At approximately 09.00hrs on the 15th June 1996, an unassuming white lorry was parked on Corporation Street in the city centre of Manchester, England; it contained over 3000 pounds of high explosive. At 11.15hrs the same day, Manchester witnessed the detonation of the largest device on the British mainland since the second World War ... The Irish Republican Army claimed responsibility for the attack. Based around actual events, LETTERBOX tells the story of Liam Connor, an ordinary boy brought up in Manchester by a seemingly ordinary family. He goes to the local school, loves football and has a best friend called Sean ... an ordinary life! Unbeknown to Liam, his father, Michael Connor, harbors a dark historic secret, following a life a lot less ordinary ... as a furtive, yet high ranking soldier within the IRA. As a result of extraordinary circumstances, Liam's innocent and carefree world is shattered when he is exposed to the truth about his family's heritage and then learns about the tragic death of his father at the hands of the SAS. Consumed with both hate and the need to seek retribution, Liam is taken to Ireland where he is intensively trained to become a highly skilled and efficient soldier within the Irish Republican Army ... He is 16 years old! Some years later, following the drug-induced death of his beloved sister, Liam is given the opportunity to exact his revenge on those he believed should truly be blamed for the tragedies in his life ... The British Government! Thus, on the 15th June 1996, it was Liam's responsibility to drive the bomb laden lorry into the unsuspecting city of Manchester and let the voice of the IRA be clearly heard ... And listened to!!

This is the full Mueller Report, as released on April 18, 2019, by the U.S. Department of Justice. A reprint of the report exactly as it was issued by the government, it is without analysis or commentary from any other source and with nothing subtracted except for the material redacted by the Department of Justice. The mission of the Mueller investigation was to examine Russian interference in the 2016 Presidential election, consisting of possible links, or "collusion," between the Donald Trump campaign and the Russian government of Vladimir Putin as well as any allegations of obstruction of justice in this regard. It was also intended to detect and prosecute, where warranted, any other crimes that surfaced during the course of the investigation. The report consists of a detailed summary of the various investigations and inquiries that the Special Counsel and colleagues carried out in these areas. The investigation was initiated in the aftermath of the firing of FBI Director James Comey by Donald Trump on May 9, 2017. The FBI, under Director Comey, had already been investigating links between Russia and the Trump campaign. Mueller submitted his report to Attorney General William Barr on March 22, 2019, and the Department of Justice released the redacted report one month later.
