The Yamaha CS3 was a 200cc parallel twin two-stroke from the very early 70's and was produced for two years. In terms of the chronology it came after the CS2, a 180cc bike, and the CS5 which was 200cc but with an upgraded motor. All these bikes preceded the RD series which arrived in 1973 so this bike is the forerunner of the RD200.
