~~Naap Extrasolar Planet Answer Guide~~

The NAAP Extrasolar Planets Lab introduces the search for planets outside of our solar system using the Doppler and transit methods. It includes simulations of the observed radial velocities of singular planetary systems and introduces the concept of noise and detection.

~~Naap Extrasolar Planet Answer Guide~~

It is difficult to even see individual stars in other galaxies let alone trying to determine a wobble in its motion (the main technique to find extrasolar worlds). So for the timebeing we will have to make do with the billions of worlds in this galaxy that are currently undiscovered.
