Harman Kardon® A/V receivers are renowned for their power, performance and ease of use, and the AVR 7550HD will only enhance that reputation. Among the fi rst receivers to offer Dolby Volume technology, which automatically adjusts volume levels when switching between sources and channels, the AVR 7550HD delivers 110 watts of power to each of the seven channels, plus two subwoofer outputs.

Harman/ Kardon HD 755 (or 750) Marantz 5400 OSE A tight budget is limiting my choices; I'm not really keen on stretching to £ 300 for the NAD 5411/542 players, but I would like HDCD compatibility. The Harmon HD 755 is also HDCD and is £ 200, which is tempting, but there are very few reviews for the player and I don't know the brand well.

Harman Kardon no longer makes single-CD players. Imagine my delight when a Harman Kardon HD-720—the direct descendent of my great HD-710, appeared last week on Ebay from Sound Seller, for \$99 brand new! Apparently it had been languishing in Sound Seller's warehouse for several years. The HD-720 arrived today.
