Text: HISTORY ALIVE! The Ancient World 4.7 From Small Farming Villages to Large City-States As you've seen, beginning around 3500 B.C.E., the Sumerians went from living in small farming villages to building large, walled cities. How and why did this happen? The answer lies in the problems the Sumerians faced and how they solved them.

Modern photographs and artists' reconstructions depict twenty of the world's ancient sites, as they are today and as they were in their period of greatness

Now available in paperback, Omerod's classic Piracy in the Ancient World brings the treachery of the ancient high seas alive. Drawing on the works of Homer and Thucydides and the historical records that

have survived from ancient Greece and Rome, Ormerod reconstructs the dangers of coastal living and seafaring and the attempts to protect against the threat of invasion from the seas. Seaborne brigands were greatly feared in the ancient world. Pirates not only preyed on merchant ships and fishing craft in the Mediterranean but also wreaked havoc on coastal townstaking men, women, and children to ransom or sell as slaves; raiding treasures; and exacting tribute from fearful town leaders. Responding to the threat of piracy, the Greeks established their primary cities inland for protection and even in their North African and Sicilian outposts they left coastal land uncultivated. Mariners feared pirate ships around every promontory and sought protection from the navies of such states as Rhodes and Crete. The Romans were beset in the time of their early Republic by "Tyrreanean" pirates based in the south of Italy and during the last years of the Empire by the Cilician pirates of Asia Minor. When one great pirate, Sextus Pompeius, was finally suppressed, rather than being punished he was charged with ridding the seas of his former followers. His attempts failed. Now available in paperback, Ormerod's classic *Piracy in the Ancient World* brings the treachery of the ancient high seas alive. Drawing on the works of Homer and Thucydides and the historical records that have survived from ancient Greece and Rome, Ormerod reconstructs the dangers of coastal living and seafaring and the attempts to protect against the threat of invasion from the seas. He describes the general nature of early piracy, ancient navigation, and the pirate's routines and tactics.

A lively and engaging narrative history showing the common threads in the cultures that gave birth to our own. This is the first volume in a bold new series that tells the stories of all peoples, connecting historical events from Europe to the Middle East to the far coast of China, while still giving weight to the characteristics of each country. Susan Wise Bauer provides both sweeping scope and vivid attention to the individual lives that give flesh to abstract assertions about human history. Dozens of maps provide a clear geography of great events, while timelines give the reader an ongoing sense of the passage of years and cultural interconnection. This old-fashioned narrative history employs the methods of "history from beneath"—literature, epic traditions, private letters and accounts—to connect kings and leaders with the lives of those they ruled. The result is an engrossing tapestry of human behavior from which we may draw conclusions about the direction of world events and the causes behind them.
