In his latest book, Calder walks the reader through the repair, maintenance, and setting up of the boat's primary systems, including the electrical system, electronics equipment, generator sets, solar panels, wind and water generators, the engine, transmission, pumps, steering, waste disposal systems, and more. Destined to become a highly trusted companion aboard all types of boats for years to come.

WRITING: A MANUAL FOR THE DIGITAL AGE, BRIEF 2nd Edition, is the rhetorical handbook for composing in the 21st century. Blakesley

and Hoogeveen place students' writing front and center with an innovative page format that keeps students' attention focused on their own writing and on activities, checklists, projects, and visual aids that help them write. The page design and innovative visuals make information about writing, reading, research, documentation, technology, and grammar easy for students to access and understand. To accomplish their writing tasks, students are taught to ground their rhetorical decisions in the specific context in which they are writing. Because writing and reading occur both in print and online, *WRITING: A MANUAL FOR THE DIGITAL AGE, BRIEF 2nd Edition*, prepares students to work with images, audio, video, and print. Technology Toolbox features throughout, as well as two dedicated parts of the book (Parts 6 and 7), teach students how to compose with technology intelligently. A new chapter on Writing in Online Courses, the first of its kind in a handbook, will guide students in addressing this new but increasingly common context for writing.
