Eliza Tahan, Assistant Editor at J Press, worries she might become the target of a disgruntled author after her boss is murdered and a form rejection letter is found on the scene. Though her boss was the star of the company, it's Eliza that actually makes decisions for the department. And the murderer must have realized his mistake, because Eliza's suddenly a target. Toss in a tragic family history, an absent mother in Botswana, and a sister working for the Department of Homeland Security and stealing the family spotlight . . . and Eliza can barely hold her life together at a level of normalcy. She's certainly not equipped to be solving murders. As she argues, "I'm not a detective. I'm a mystery editor. I don't know whodunit until I read the last pages of a manuscript." But when the editor of the local newspaper's Book Section becomes more than just a professional acquaintance, their growing passion urges Eliza to overcome her past and her passivity to find the author-turned-murderer before she is pegged with the crime or, worse yet, before she -- or someone she loves -- becomes the next victim.

"A twisty, cold-case mystery custom made for fans of Sara Shepard, PLL and Veronica Mars! The edge-of-your-seat plot, sinister backstory and smart, brave and irreverent main character made this whodunit unputdownable."—Justine Magazine In To Catch a Killer, a contemporary mystery by debut author Sheryl Scarborough, a teenage girl uses forensic science to solve the cold-case murder of her mother. Erin Blake has one of those

names. A name that is inextricably linked to a grisly crime. As a toddler, Erin survived for three days alongside the corpse of her murdered mother, and the case—which remains unsolved—fascinated a nation. Her father's identity unknown, Erin was taken in by her mother's best friend and has become a relatively normal teen in spite of the looming questions about her past. Fourteen years later, Erin is once again at the center of a brutal homicide when she finds the body of her biology teacher. When questioned by the police, Erin tells almost the whole truth, but never voices her suspicions that her mother's killer has struck again in order to protect the casework she's secretly doing on her own. Inspired by her uncle, an FBI agent, Erin has ramped up her forensic hobby into a full-blown cold-case investigation. This new murder makes her certain she's close to the truth, but when all the evidence starts to point the authorities straight to Erin, she turns to her longtime crush (and fellow suspect) Journey Michaels to help her crack the case before it's too late. Capitalist Nigger is an explosive and jarring indictment of the black race. The book asserts that the Negroid race, as naturally endowed as any other, is culpably a non-productive race, a consumer race that depends on other communities for its culture, its language, its feeding and its clothing. Despite enormous natural resources, blacks are economic slaves because they lack the 'devil-may-care' attitude and the 'killer instinct' of the Caucasian, as well as the spider web mentality of the Asian. A Capitalist Nigger must embody ruthlessness in pursuit of excellence in his drive towards achieving the goal of becoming an economic warrior. In putting forward the idea of the Capitalist Nigger, Chika Onyeani charts a road to success whereby black economic warriors employ the 'Spider Web Doctrine' – discipline, self-reliance, ruthlessness – to escape from their victim mentality. Born in Nigeria, Chika Onyeani is a journalist, editor and former diplomat.
