The Caro-Kann is a reliable yet at the same time dynamic answer to White's most popular opening move, 1 e4. It has the seal of approval of numerous leading Grandmasters including Vishy Anand, Evgeny Bareev and Alexey Dreev, as well as former World Champion Anatoly Karpov, who has utilized it with great success throughout his illustrious career. One of the attractions of the Caro-Kann is that it suits a variety of different styles; it can lead to wild tactical battles as well as quiet, positional play. In Play the Caro-Kann, Jovanka Houska presents the reader with a concise and trustworthy repertoire within the opening, providing a solution against all of White's main possibilities. Houska examines the important tactical and strategic plans for both sides, arming the reader with enough information to begin playing the Caro-Kann with confidence in his or her own games. *A complete repertoire against 1 e4 *Written by a Caro-Kann expert *Ideal for improvers, and club and tournament players

The Caro-Kann is renowned as a top-tier chess defence to 1.e4, and Lars Schandorff's Grandmaster Repertoire book on this opening received rave reviews. As GM Zenon Franco Ocampos put it, "I cannot imagine a better way of converting into a Caro-Kann player." A decade later, Schandorff is back with a completely new repertoire which improves on his previous work in every way.Playing the Caro-Kann offers a complete repertoire for Black after 1.e4 c6, based on 2.d4 d5 followed by 3.e5 Bf5 or 3.Nc3 dxe4 4.Nxe4 Nf6 5.Nxf6+ exf6. With cutting-edge analysis, thorough explanations of positional motifs and instructively annotated illustrative games, this book is essential reading for anyone with an interest in the Caro-Kann.

The Caro-Kann is one of Black's most reliable answers to 1.e4. It is a regular favourite of elite players, who know that computer-aided preparation now threatens the sharpest lines of the Sicilian or Ruy Lopez (at the very least with a forced draw). The Caro-Kann is less susceptible to such forcing lines -- Black sets out to equalise in the opening, and win the game later. Lars Schandorff reveals a bullet-proof opening repertoire and lucidly explains how Black should play the middle and endgame. Features: A complete repertoire against 1.e4 with 1...c6; Written by an eminent opening expert; A rock-solid grandmaster repertoire.

The Caro-Kann is a rare beast among chess openings. While respected as a sound and safe way to start the game, it also avoids symmetry or simplification. This allows Black many ways to keep the game unbalanced and play for a win. Two Norwegian opening experts provide a set of options that take full advantage of this flexibility. In the main line, you are given a choice between the 4...Bf5 and the 5...exf6 systems - but both strictly in their modern dynamic forms! In the latter, Hansen is a world-leading authority, with a wealth of experience to explain the typical mistakes White makes when facing this deceptively tricky line. By studying his material, you will be well ahead of the game in this rapidly-evolving system. For instance, the critical improvements over the Duda-Carlsen game in 2020 were already in Hansen's files from two years earlier. The other recommended systems for Black are also aggressive and very much the '21st-century Caro-Kann'. It's 3...c5 against the Advance, in which Hansen is also an outstanding specialist. The Panov Attack is answered with ...g6 lines - strategically ideal, and nowadays backed up by amazing modern computer analysis. Against the Two Knights, we are offered an ...exf6 option as well as the ...Bd4 approach. The repertoire is completed with good sensible recommendations against almost every other conceivable move White can throw at the Caro-Kann. This extremely up-to-date book has an innovative structure, with 'lessons', model games and theory 'magnifiers'. Sverre Johnsen is a chess analyst, researcher, organizer, trainer and writer from Norway. He is co-author of Win with the London System and Win with the Stonewall Dutch, two of the best-selling openings books of recent years. Grandmaster Torbjorn Ringdal Hansen is also from Norway. He is one of the founders of the chess retail business Sjakkhuset and works full-time as a chess trainer. He was the first coach of Magnus Carlsen (in 1999) and currently works with several grandmasters.

This book provides a rock solid opening repertoire for Black, using systems based on the move ...c6. The backbone of this repertoire is the Caro-Kann versus 1 e4 and the Semi-Slav (via a Slav move order) versus 1 d4. In general these systems aim to neutralise White's early initiative. They aim for success by the gradual accumulation of small advantages, rather than by emerging victorious from an early tactical melee (which is rather problematic with the black pieces at the best of times). The book is co-authored by Cyrus Lakdawala and Keaton Kiewra and takes a teacher/student format. The "student" Keaton Kiewra is a very strong international master with two grandmaster norms. He normally specialises in razor-sharp defences such as the Sicilian Dragon and King's Indian. Now he wants to broaden his style and develop his skills at handling more sedate positions. His "teacher" is Cyrus Lakdawala, an extremely experienced player, coach and author, who guides Keaton along the learning path.

This volume aims to provide an ideal platform to study chess openings. By continually challenging the reader to answer probing questions throughout the book, the 'Move by Move' format greatly encourages the learning and practicing of vital skills just as much as the traditional assimilation of opening knowledge. Selected questions and answers are designed to keep the reader actively involved and allow him to monitor his progress as he learn. This can be a good way to study any chess opening and at the same time improve general chess skills and knowledge. In this book, Cyrus Lakdawala examines the 'Caro-Kann' - he wants to share his experience and knowledge of the 'Caro-Kann', present a repertoire for Black and provide answers to all the key questions.
