Based on their extensive research and work with organisations, V Nilakant and S Ramnarayan present a new model for organisational change that identifies four core tasks crucial to the success of any change initiative: appreciating change, mobilising support for change, executing change and building change capability. The authors contend that those change initiatives that do not succeed are the direct outcome of a failure to effectively manage one or more of these tasks. Simultaneously, as it warns

managers against adopting simplistic recipes, Change Management also explains how organisational change is about changing the way in which people think and act. This book suggests four fundamental ways of altering the mindsets of managers: tuning to the external environment and people's mindsets inside the organisation; influencing and persuading people and strengthening communication; constructing change initiatives on the basis of cross-functional collaboration and challenging goals; and creating positive contexts that enable people to have faith in their own capabilities. This book argues that effective management of change is about balance—balance between short-term and long-term, profits and people, overview and detail, continuity and transformation and between the feasible and the desirable.

The internet and mobile devices play a huge role in teenagers' home and school life, and it's becoming more and more important to effectively address e-safety in secondary schools. This practical book provides guidance on how to teach and promote e-safety and tackle cyberbullying with real-life examples from schools of what works and what schools need to do. The book explains how to set policy and procedures, how to train staff and involve parents, and provides practical strategies and ready-to-use activities for teaching e-safety and meeting Ofsted requirements. Including up-to-the-minute information and advice that includes discussion of new technologies, social media and online gaming sites, SRE in the smartphone age, and recent school policy trends such as 'Bring Your Own Device', this book provides all of the information that educational professionals need to implement successful whole school e-safety strategies.
