Tartuffe, or The Impostor, or The Hypocrite, first performed in 1664, is one of the most famous theatrical comedies by Molière. The characters of Tartuffe, Elmire, and Orgon are considered among the greatest classical theatre roles.

Jean Baptiste Poquelin, better known by his stage name of Moliere, stands without a rival at the head of French comedy. Born at Paris in January, 1622, where his father held a position in the royal household, he was educated at the Jesuit College de Clermont, and for some time studied law, which he soon abandoned for the stage. His life was spent in Paris and in the provinces, acting, directing performances, managing theaters, and writing plays. He had his share of applause from the king and from the public; but the satire in his comedies made him many enemies, and he was the object of the most venomous attacks and the most impossible slanders. Nor did he find much solace at home; for he married unfortunately, and the unhappiness that followed increased the bitterness that public hostility had brought into his life. On February 17, 1673, while acting in 'La Malade Imaginaire, ' the last of his masterpieces, he was seized with illness and died a few hours later. The first of the greater works of Moliere was 'Les Precieuses Ridicules, ' produced in 1659. In this brilliant piece Moliere lifted French comedy to a new level and gave it a new purpose-the satirizing of contemporary manners and affectations by frank portrayal and criticism. In the great plays that followed, 'The School for Husbands' and 'The School for Wives, ' 'The Misanthrope' and 'The Hypocrite' (Tartuffe), 'The Miser' and 'The Hypochondriac, ' 'The Learned Ladies, ' 'The Doctor in Spite of Himself, ' 'The Citizen Turned Gentleman, ' and many others, he exposed mercilessly one after another the vices and foibles of the day. His characteristic qualities are nowhere better exhibited than in 'Tartuffe.' Compared with such characterization as Shakespeare's, Moliere's method of portraying life may seem to be lacking in complexity; but it is precisely the simplicity with which creations like Tartuffe embody the weakness or vice they represent that has given them their place as universally recognized types of human nature. Tartuffe provides interesting incite into human nature, such as the relationship between Tartuffe and Dorine. Tartuffe is clearly a hypocrite in this (as the title suggests), one example being that he clearly blames others for his own faults rather than taking responsibility for his own actions, however it can also be seen that he allows himself to be tempted into impiety. As it is, I do not wish to give too much away of the book as it does have an interesting twist near the end that left me surprised. I've read this book a few times and have listened to a recording of the play (in English) a few times, as well. It's definitely my favorite of his works and I recommend it. If you're a fan of Shakespeare, then you'll really enjoy it.

Tartuffe Or The Hypocrite By Jean Baptiste Poquelin Moliere Translated By Curtis Hidden Page Classic Drama Brand New Edition Jean-Baptiste Poquelin, known by his stage name Moliere, baptised January 15, 1622 - February 17, 1673, was a French playwright and actor who is considered to be one of the greatest masters of comedy in Western literature. Among Moliere's best-known works are Le Misanthrope (The Misanthrope), L'Ecole des Femmes (The School for Wives), Tartuffe ou L'Imposteur (Tartuffe or the Hypocrite), L'Avare (The Miser), Le Malade Imaginaire (The Imaginary Invalid), and Le Bourgeois Gentilhomme (The Bourgeois Gentleman). Born into a prosperous family and having studied at the College de Clermont (now Lycee Louis-le-Grand), Moliere was well suited to begin a life in the

theatre. Thirteen years as an itinerant actor helped him polish his comic abilities while he began writing, combining Commedia dell'arte elements with the more refined French comedy.

Tartuffe; Or, The Hypocrite by French playwright Molière (Jean-Baptiste Poquelin) was first performed in 1664 for Louis XIV. The representation in the play that pious men are not as pious as they make themselves out to be, was what got the play almost immediately banned. Those opposed to it were members of upper-class French society, and the Roman Catholic Church. Louis XIV actually liked the play. However, it took several rewrites before it was finally performed as a five-act play without controversy in 1669. It is a comic tale that features the characters of Tartuffe, Elmire, and Orgon - considered some of the best roles in theatre. Tartuffe, a so-called pious man who claims to speak with divine authority is taken in by a family, the head of which is Orgon. Whilst Orgon and his mother fall completely for Tartuffe's pious act, the rest of the family hate him and devise a scheme to show him for what he really is. All in all, the play exposes the folly of believing things without checking facts or appealing to reason. Much like how Machiavellian became part of the language after 'The Prince' was published, Tartuffe became a word used to describe a religious hypocrite. Nº 78 in Anne Haight's List of Banned Books. Part of the Encyclopaedia Britannica's Great Books of the Western World set. Part of the Harvard Classics set.
