The Chomsky-Foucault debate was a debate about human nature, between Noam Chomsky and Michel Foucault at the Eindhoven University of Technology in the Netherlands, in November 1971. Chomsky and Foucault were invited by the Dutch philosopher Fons Elders to discuss an age-old question: "is there such a thing as 'innate' human nature independent of our experiences and external influences?"

The Chomsky-Foucault Debate: On Human Nature by Noam Chomsky
Chomsky's argument for the existence of something called 'human nature' is pretty straightforward and analytic. The environment is too impoverished to account for even the everyday creativity people show in language, which is only one example of human creativity among many (i.e., psychological behaviorism is false).

The Chomsky-Foucault Debate. : In this historic 1971 debate, two of the twentieth century's most influential thinkers discuss whether there is such a thing as innate human nature. In 1971, at the...

The Chomsky-Foucault Debate: On Human Nature - Noam ...
What begins as a philosophical argument rooted in linguistics (Chomsky) and the theory of knowledge (Foucault), soon evolves into a broader discussion encompassing a wide range of topics, from science, history, and behaviorism to creativity, freedom, and the struggle for justice in the realm of politics. In addition to the debate itself, this volume features a newly written introduction by noted Foucault scholar John Rajchman and includes substantial additional texts by Chomsky and Foucault.

Two of the twentieth century's most influential thinkers debate a perennial question. In 1971, at the height of the Vietnam War and at a time of great political and social instability, two of the world's leading intellectuals, Noam Chomsky and Michel Foucault, were invited by Dutch philosopher Fons Edlers to debate an age-old question: is there such a thing as "innate" human nature independent of our experiences and external influences?

The Chomsky-Foucault Debate (??)

When you discuss creativity and freedom, I think that one of the misunderstandings, if any misunderstandings have arisen, has to do with the fact that Mr. Chomsky is starting from a limited number of rules with infinite possibilities of application, whereas you, Mr. Foucault, are stressing the inevitability of the "grille" of our historical and psychological determinisms, which also applies to the way in which we discover new ideas.
