~~IFREE! The Industrial Design Reader - video dailymotion~~
Industrial design is a process of design applied to products that are to be manufactured through techniques of mass production. Its key characteristic is that design is separated from manufacture: the creative act of determining and defining a product's form and features takes place in advance of the physical act of making a product, which consists purely of repeated, often automated, replication.

~~Industrial design - The Reader Wiki, Reader View of Wikipedia~~
THE INDUSTRIAL DESIGN READER, a new book edited by Carma R. Gorman, promises relief to designers and historians who want to connect with their field's rich past. Gorman has assembled sixty primary-source essays from 150 years of industrial design history providing access to some of the most memorable and hard-to-find documents of this fascinating field.
