Reveals About Our Power To Change Others

According to Tali Sharot, associate professor of cognitive neuroscience, founder and director of the Affective Brain Lab at University College London, and author of *The Influential Mind: What the Brain Reveals About Our Power to Change Others*, it really depends on the situation.

~~Tali Sharot | Unpacking the Science of the Influential Mind~~

When two people make decisions together, when they disagree.... the brain really fails to encode the information coming from the disagreeing partner. But when two people agree, each person is very precisely encoding the information coming from the agreeing partner. Her latest book, *The Influential Mind*, explores the many ways our brain receives information and why.
