15/04/2002 By Corporate Communication. Volvo Penta is now introducing its new D12 Heavy Duty – a 12-liter marine diesel that, with its totally electronic control, is the first of a new generation of engines for heavy commercial operations. The D12's new electronics not only provides more efficient combustion with improved performance, lower fuel consumption and reduced emissions, but also increased reliability with improved safety and a longer operating life for the engine.
